**SPRING IS ALMOST HERE!**

Patients often ask what is the most effective way to get their smile whiter. In our office we believe in-office bleaching combined with take home bleaching trays are the best way and safest treatment options available. One hour with our special high powered curing light and special bleaching solutions dispensed with close fitted personal trays used one hour daily for the prescribed time create a brighter whiter smile.

Your initial shade can be improved one, two or more shades brighter. with the technique described.

Thursday 8:15 am- 3:00 pm  
Friday by appointment**

# SAY GOODBYE TO CROOKED TEETH WITH INVISALIGN

***INVISALIGN***, Clear aligners are very comfortable, invisible and an excellent alternative for adult orthodontics. Straightening your teeth will improve your appearance and can give you overall healthier gums and teeth.

Why are crooked teeth a problem? Teeth that are not aligned properly in your mouth create what dentists call “malocclusion.” Left untreated, malocclusion can lead to periodontal disease and create abnormal amounts of stress on teeth and jaw, which leads to premature wear.
